Subject: Preserving Badger Mill Creek

Dear commissioners:

Thank you for all you do on behalf of the residents and visitors to our beautiful Dane county.

This note is to urge you **not** to support proposed rules that would enable the proposed discharge of effluent from MMSD into badger Mill Creek.

As a long time resident of Madison and Dane County, I highly value the pristine condition of the water that flows in this stream and hope that satisfactory solutions to MMSD's needs can be found.

Sincerely,

Paul H. Williams
