DNR File No. DC-0180

Mr. Steve Steinhoff, Deputy Director
Capital Area Regional Planning Commission
City County Building, Room 362
210 Martin Luther King Jr. Blvd.
Madison, WI 53703

Subject: Dane County Water Quality Management Plan - Appendix C
Point Source Inventory and Analysis 2017 Update

Dear Mr. Steinhoff:

We have completed our review of the 2017 update to the Dane County Water Quality Plan Update for the Point Source Inventory and Analysis (Appendix C) which was submitted to the Department by the Capital Area Regional Planning Commission. The Department hereby approves of this update to the Dane County Plan and the Wisconsin Areawide Water Quality Management Plan (see Resolution CARPC No. 2017-05).

The DNR recognizes this report as a significant undertaking and representing an important contribution to public information of "point source" status and infrastructure in the county. This is a critical component of Wisconsin's Areawide Water Quality Management Plan, particularly as the state advances implementation of innovative rules and expedited processes to achieve water quality standards. Your staff worked directly with WWTP operators and partners and DNR Wastewater Specialists and other staff in the development of this report.

A public hearing was held on October 13th, 2016. The CARPC Commission passed a resolution recommending approval of the amendment on March 9, 2017.

This amendment becomes a part of the *Dane County Water Quality Management Plan* and will be forwarded to the US Environmental Protection Agency to meet the requirements of the Clean Water Act of 1987 (Public Law 92-500 as amended by Public Law 95-217), and outlined in the federal regulations 40 CFR, Part 35.

This review is an integrated analysis action under s. NR 150.20 (2) (a) 3, Wis. Adm. Code. By means of this review, the Department has complied with ch. NR 150, Wis. Adm. Code, and with s. 1.11, Stats.

The approval of this plan update does not constitute approval of any other local, state, or federal permit that may be required for sewer construction or associated land development activities.

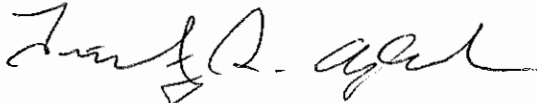

Appeal Rights:

Wisconsin statutes and administrative rules establish time periods within which requests to review Department decisions must be filed. For judicial review of a decision pursuant to sections 227.52 and

227.53, Wis. Stats., a party has 30 days after the decision is mailed, or otherwise served by the Department, to file a petition with the appropriate circuit court and serve the petition on the Department. Such a petition for judicial review must name the Department of Natural Resources as the respondent.

To request a contested case hearing pursuant to section 227.42, Wis. Stats., a party has 30 days after the decision is mailed, or otherwise served by the Department, to serve a petition for hearing on the Secretary of the Department of Natural Resources. All requests for contested case hearings must be made in accordance with section NR 2.05(5), Wis. Adm. Code, and served on the Secretary in accordance with section NR 2.03, Wis. Adm. Code. The filing of a request for a contested case hearing does not extend the 30 day period for filing a petition for judicial review.

Sincerely,

Timothy R. Asplund
Monitoring Section Chief
Bureau of Water Quality
